The men went to the woods this afterrom with kegs of beer and began a canousal. The trouble is said by Anderrom to have started when the Americans
tried to persuade the Finlanders, who
had already furnished two kegs of beer,
to go out and get a third. The Finlanders refused, and a fight began.
It is alleged that Solomon and Younghiller seized Anderson and threw hin
into the bon-fire which the men had
built. The other Americans rescued Anderson. Revolvers and knives were then
used, and Anderson says that Hart, in
trying to shoot the Finlanders, fired at
his own countrymen. Hart was the only
man who escaped injury in the battle.
The shots were heard by the police,

Dissatisfied With Court Review Amendment to Railway Rate Bill.

South Carolina Senator Says Democrats Will Not Vote For Compromise Measure.

(By Associated Press.)

WASHINGTON, D. C., April 1.—Senator
Tillman, Who has charge of the railway

he was not satisfied with the court prefer he was not satisfied with the court by the was amendment to the measure, which was agregif on yesterday at a conference between President Roosevelt, several lepublican scenarios, who are supporting the bill, and members of the interstate Commerce Commission. The senator said he would oppose it on the floor of the Senate, and he expressed the opinion that not held a degree of his Democratic Senate, and he expressed the opinion that not half a dozen of his Democratic colleagues would support the amendment. Senator Tilinan declared the amendment does not neet the situation fully, hasmuch as it makes no provision setting forth specifically that there shall be no suspension of the railway rate fixed by the interstate Commerce Commission, pending the judicial determination of any case which may be appealed. tion of any case which may be appealed;

tion of any case which may be appealed;
from the rate as established.

This is a contention which Senator Tillman and a number of the Democratic senators have 'urged,' as they argue that a fallure to provide absolutely against a suspension of the rate operates to millify the objects for which the lexistation is desired. The senator added that he would prefer to vote for the House bill as it stood, than to accept the amendment, for the pending measure gave the right of review where constitutional questions are involved.

The proposed amendment was discussed generally to-day among groups of Democratic senators, but there was no conference on the subject among them.

Senator Spooner was at the White House to-night in conference with President Roosevelt, presumably of matters connected with rate legislation.
